

CG_LAB 7 – Assignment

(2023BCS063)

Objective: Develop a program that accepts a user-defined polygon and fills it using the following algorithms:

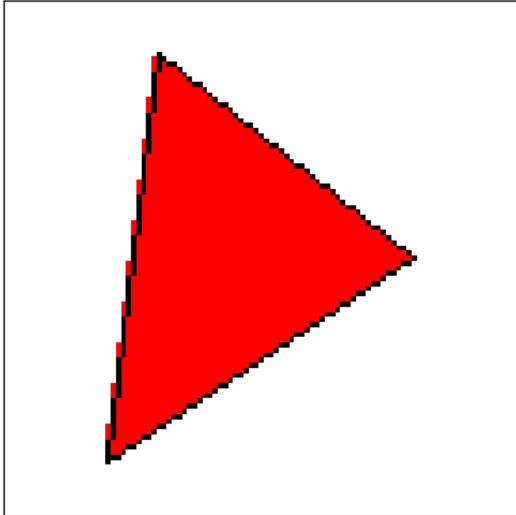

- a) Scanline Fill Algorithm
- b) Flood Fill Algorithm (4-connected and 8-connected)
- c) Boundary Fill Algorithm

Solution:-

Polygon Filling Algorithms

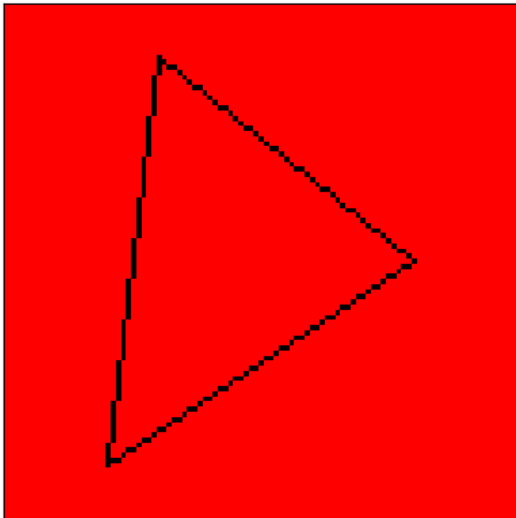

a) Scanline Fill

b) Flood Fill (4-Connected)

b) Flood Fill (8-Connected)

c) Boundary Fill (4-Connected)
